Material	steel
Product Category	Topline
Rod combination	2-piece folding design
Special features	slim clutch; tall tubing combination; big tubes provide a modern look and a superior stability
Threaded connector	3/8"
Type	black
Weight	6.28 kg

Significant Stand Point! The larger tubing reaches a height of 1.7 m and as such is well suited for taller individuals. The sleek clutch provides for user friendly height adjustment and it is easy to fix in place. A very heavy round cast-iron base with a diameter of 300 mm provides the stand with both exceptional stability and a small footprint. The circular rubber insert ring filters foot step sounds and reduces the transmission of unwanted sounds. The stand weighs 6.2 kg and is equipped with an extendable boom.
